

DUMP BODIES

HIGHLIGHTED FEATURES

- Unibody Longsills
- 3" Lower Center Of Gravity Compared To Crossmember Design
- Side & Tailgate: Double Wall For Heavy-Duty Application
- Tailgate: Upper & Lower Latches Provide Improved Safety To Operator
- Materials Chosen Strategically To Maximize Longevity Of Your Work Truck & Payload Capacity
- Easy To Mount And Install

Voth's Unibody design has been a trusted and proven dump body since 2003. Available in Aluminum, Steel or a Hybrid (Aluminum Sides & Tailgate on steel body). The Voth Unibody dump has a sleek understructure supported by longsills. Easy to install and features a low mounting height that provides a lower center of gravity and increased stability on the road or on the job site.

The overall design is robust, durable, and compact which pairs well with light and medium truck chassis. The original Steel Unibody provides a heavy-duty, hard-working truck design without sacrificing efficiency and functionality. Meanwhile the Aluminum Unibody optimizes your payload capacity with a lighter body and provides added corrosion resistance while maintaining the strength and integrity commonly associated with steel bodies.

UNIBODY FEATURES

1. EASY ACCESS FOLD AWAY/LOCKABLE TARP CRANK
2. BLACK HEAVY DUTY MESH TARP WITH STEEL SEALED BEARINGS AND ALL STAINLESS STEEL HARDWARE
3. CNC CUT WINDOW
4. POCKETS FOR ALUMINUM OR WOOD SIDE EXTENSIONS
5. D-RINGS IN ALL 4 CORNERS
6. STAINLESS STEEL DOOR LATCHES
7. TAILGATE RELEASE LATCH (TO OPEN)
8. DEBRIS SHEDDING FRONT POSTS
9. TARP TIE-DOWN RODS ON SIDES
10. TAILGATE LATCHES FOR TWO-WAY ACTING TAILGATE
11. SAFETY STAND
12. UNIBODY DESIGN FLOOR
13. CHOICE OF EAGLE OR MAILHOT TELESCOPIC CYLINDER OR CHAMPION SCISSOR HOIST
14. 9" CABSHIELD

15. SHOVEL RACK CUT OUTS INTEGRATED INTO CABSHIELD
16. DUMP RELEASE LATCH (TO DUMP)

OPTIONS

- GRAVEL CHUTE
- REMOVABLE CHIPPER HOOD
- TOOL/SHOVEL RACK BASE

HIGHLIGHTED FEATURES

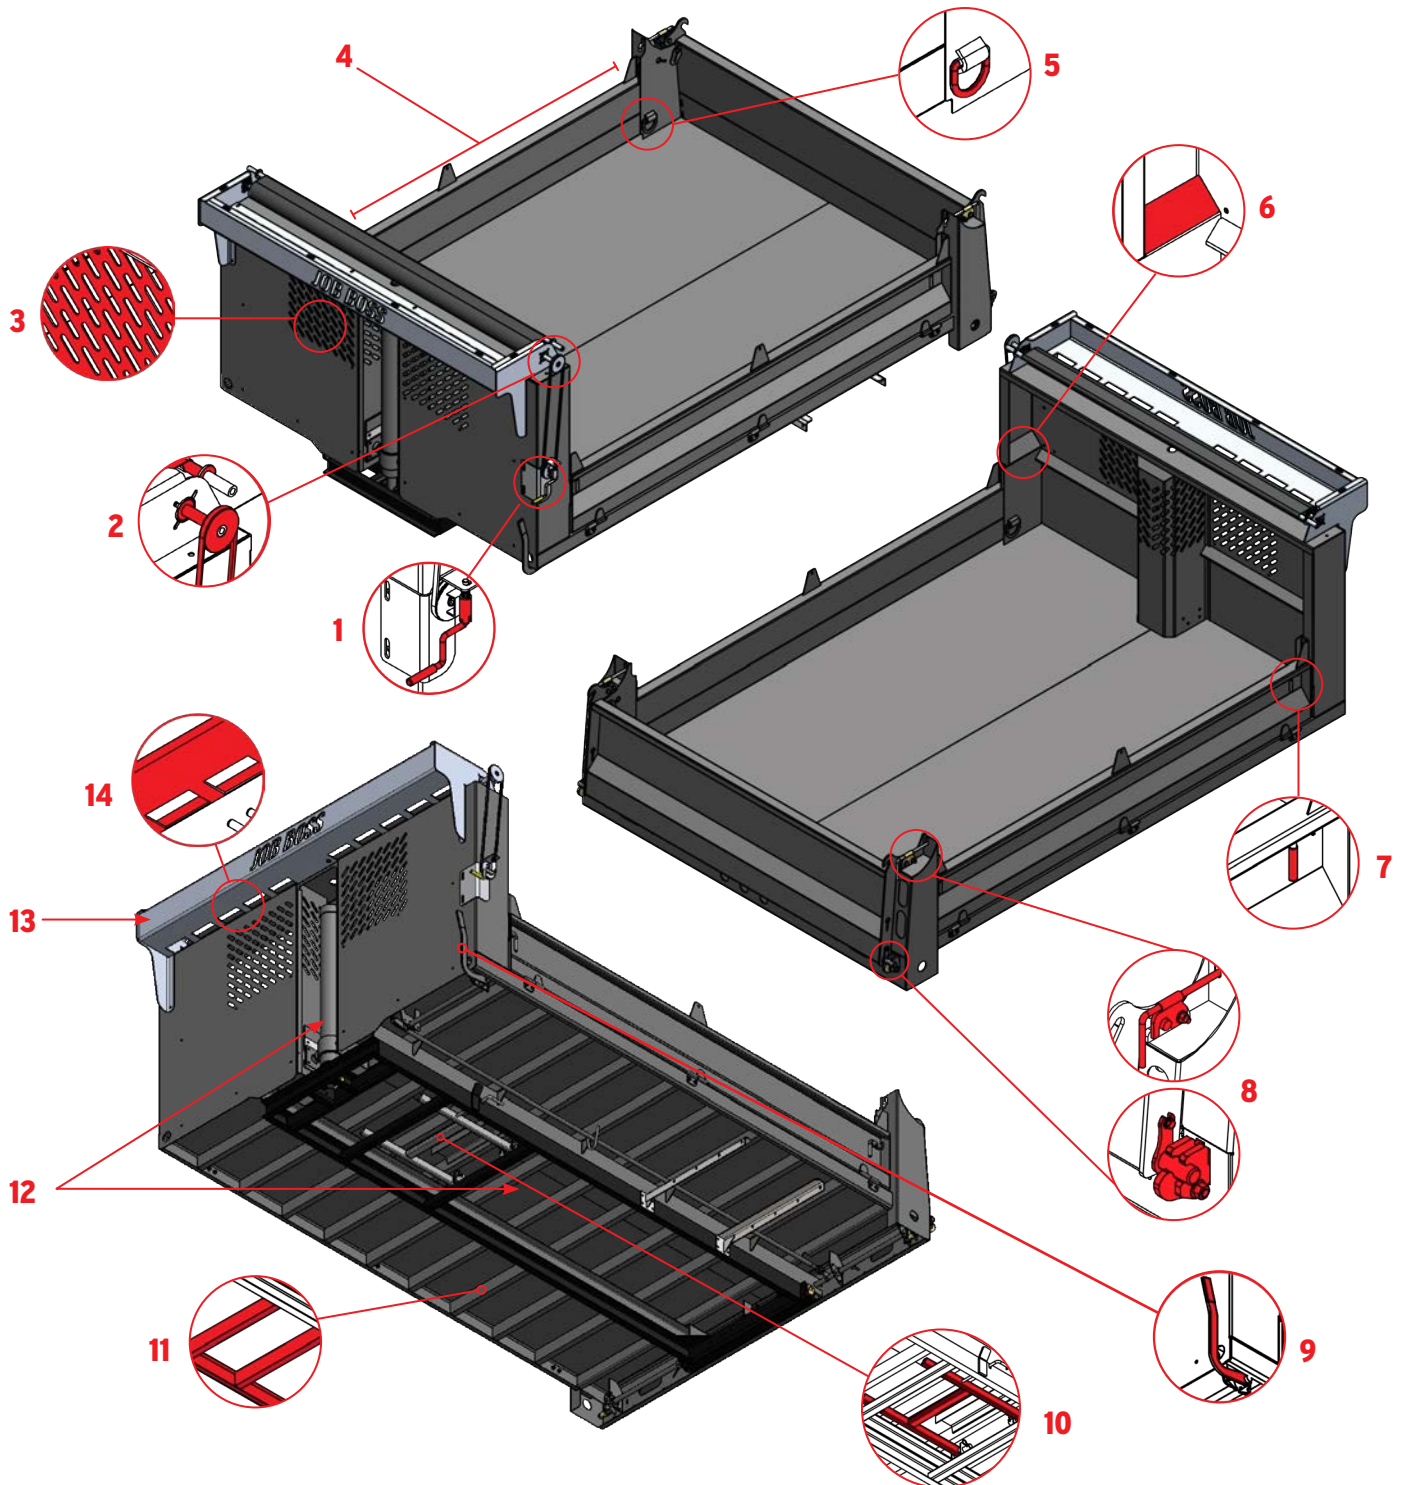

- Crossmember Channel With Longsills
- Sides - Combination Of Single And Double Wall Design
- Dual Top Lock & Release Mechanism On Tailgate
- Flared Rear Corner Post For STT Lighting
- Available In Steel Or Aluminum For 60" CA Or 84" CA Truck Chassis
- Easy To Mount And Install

The new home of the JOB BOSS, this dump body features a heavy duty crossmember floor, providing maximum support and resistance to twisting or distortion from weight loading. Manufactured in steel and aluminum, the JOB BOSS dump body is supported by the same standard and custom body options offered by Voth Truck Bodies.

DUMP INSERT

HIGHLIGHTED FEATURES

- Built for your 6'6" or 8" Pick-Up Bed
- 21" Side Wall Height
- 21" Tailgate Height
- Steel Subframe for Superior Support

OPTIONAL DUMP INSERT ACCESSORIES

- Bolt-on Headboard
- Tarp System with a Manual Hand Crank
- Mesh Side Extensions
- Spreader

Voth offers its unique dump insert design in two materials: Standard Steel and Aluminum. The overall design is robust, durable, and compact which pairs well with pick up trucks. The original Steel Unibody provides a heavy-duty, hard-working truck design without sacrificing efficiency and functionality. Meanwhile the Aluminum Unibody optimizes your payload capacity with a lighter body which is critical for trucks with a lighter payload allowance. In addition, Aluminum offers additional corrosion resistance while maintaining the strength and integrity commonly associated with Steel bodies.

US LANDSCAPE BODY

HIGHLIGHTED FEATURES

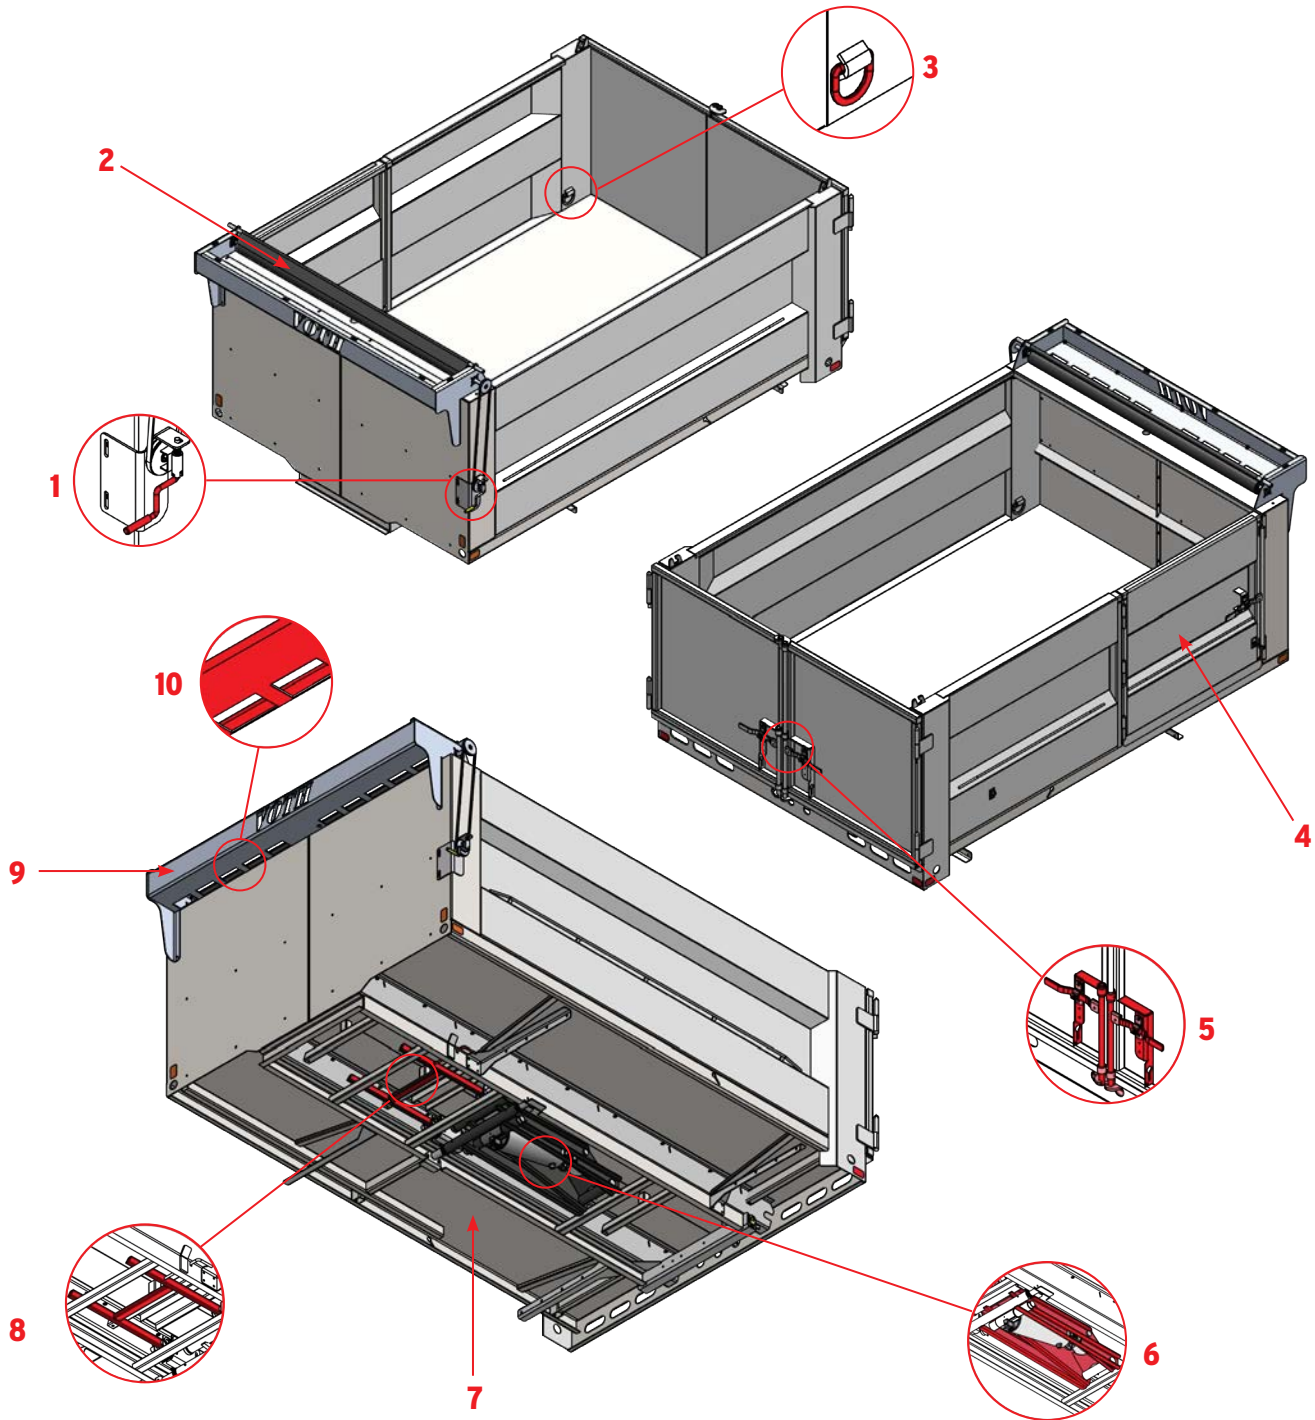

- Sleek And Durable Design
- Camlock Barn Doors
- 50" Swing Door On Passenger Side
- Integrated Cabshield And Tarp Housing
- Easy To Mount And Install

The US Landscape Body, featuring the Voth Unibody design, is known for its high sides offering more cubic space for hauling materials. To enhance the functionality, it comes with rear barn doors for easy loading and unloading, as well as a side swing access door for quick access inside the body. This specific design has gained significant attention and appreciation from our southern neighbors, impressing them with its utility.

UNIBODY-HX

- Heavy Duty - Contractor Grade Dump Body Design
- AR - High Quality, Long Lasting Steel Material
- Smooth Clean Sides And Tailgate For Ease Of Maintenance And Space For Signs Or Decals.
- Optional Bolt On Cabshield

The Unibody HX is a contractor-grade dump body engineered for heavy-duty hauling applications. It is constructed using industry-renowned AR500 and AR450 abrasion-resistant steel across critical structural components, including the sides, tailgate, headboard, and floor. The integrated unibody design delivers a streamlined appearance while maximizing structural integrity, durability, and operational efficiency during high-impact dumping operations.
