

56CA BODIES

Built for durability, organization, and productivity, Voth Service Bodies are designed to keep your crew working efficiently every day. Featuring rugged steel construction and secure external storage compartments, Voth service bodies provide convenient access to tools, equipment, and supplies.

Weather-resistant compartments help protect valuable equipment from the elements while keeping everything organized and within reach. Whether you're moving between job sites or tackling demanding tasks throughout the day, a Voth service body helps maximize efficiency, reduce downtime, and keep your operation running smoothly.
